

# REINFORCED CUT-OFF WHEELS

Slice through metals, refractory bricks, stone, reinforced concrete and masonry with TOPLINE reinforced cutoff wheels.

Commonly used for notching, sheet metal cutting, pipe cutting, removal of risers, metal plate dimensioning, bar cutting, rail cutting, etc.

## Sak Abrasives Ltd.

### User segments

- Investment castings
- Steel manufacturing
- Welding and construction
- Foundry & Metal fabrication
- Pipe manufacturing

### The TOPLINE advantage

- Double reinforced for added safety and better cutting efficiency
- Ease of cut reducing operator fatigue
- Zirconia-alumina wheels engineered for premium performance especially for stainless steel cutting
